

Dual 92 Plunger

Odessa Texas - Nakeisha Well #4.

The Problem

Devon Oil Company in Odessa Texas was experiencing extremely sandy conditions in most of their wells.

After experiencing success with the **Eagle Dual 92 Plunger** in other wells they decided to give a new well a try after Frac.

They put in the Eagle Dual 92 in Nakeisha Well #4.

Solution

Put in Eagle Dual 92 Plunger to **extend life of pump.**

Job Postmortem

As of March 2013 the Nakeisha Well # 4 was still producing after 518 DAYS!
