

SureFlow Valve

Ute Energy - Roosevelt, Utah

The Problem

Production was being lost due to gas lock and seating balls caused by deviated and horizontal pumping.

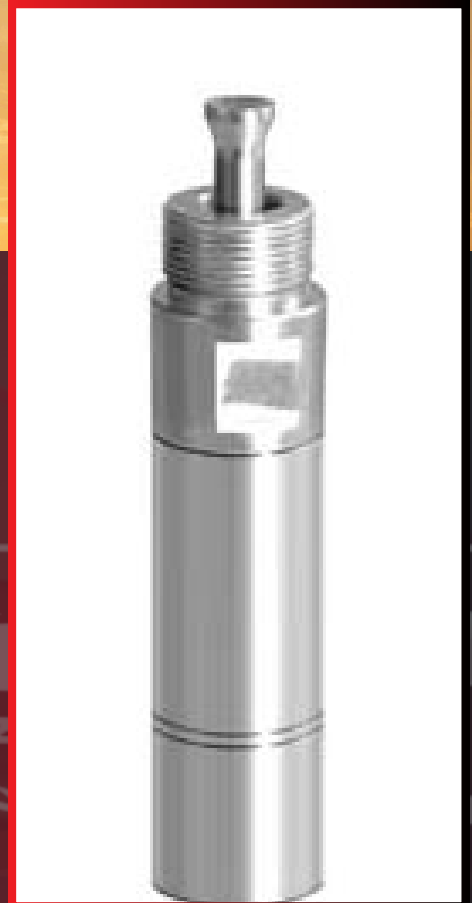

Solution

The Eagle SureFlow Valve was introduced and run at Ute Energy in Roosevelt, Utah through the local pump shop, Weatherford.

Job Postmortem

After installing the Eagle SureFlow Valve, pump run times have extended up to 6 months and efficiency has increased by 60%.

Based on this success Ute Energy is continuing to purchase and use the Eagle SureFlow Valve
